BIRAC Regional Bio Innovation Centre (BRBC) is a joint initiative of BIRAC and Venture Center. It focuses on filling up a few key innovation's ecosystem gaps in India for biotech/biomed startups specifically relating to mentoring, regulations, fund raising and Bio Incubation practice.

Venture Base Camps are high intensity, focused, theme-based camps intended to take a startup from point A to point B in their entrepreneurial journey, prior to their execution on key goals of the company.

The focus of this Venture Base Camp:

Every start-up is subjected to a number of questions from various stakeholders, related to the product, the technology, financials etc. However, one of the most frequent questions from most stakeholders relates to milestones and timing. "When will you complete development?", "When will you get regulatory approval?", "When will you launch?" are all frequent questions every start-up is familiar with. Many start-ups and entrepreneurs would also be familiar with the discomfort of repeatedly missing deadlines and milestones and often wondering, "Where did all that time go?". The Focus of this workshop is to understand basics of project management. Learn how you can direct your teams more efficiently, react to issues with greater agility and reach your milestones in a consistent manner.

Course Description

Project management is a proactive process that seeks to help the right people do the right tasks at the right time. Without a set project management method, many teams tend to work reactively—handling issues as they arise rather than proactively planning for known risks and setting project goals and parameters from the beginning. With the help of a user-friendly software solution (Project Libre), learn how to break down a project into more manageable pieces with a clear process of assigned tasks, milestones, and deadlines. Learn how you can direct your teams more efficiently, react to issues with greater agility and reach your milestones in a consistent manner.

How will you benefit?

This workshop will help you get versed with Software's/tools that can put you in firm control of your time, your milestones and your deadlines.

Prerequisites

There are no specific requirements. However, you can download: Project Libre Software on your desktop/laptop for better understanding from this link: <https://www.projectlibre.com/>

Terms and Conditions for Participants

- Participants shall arrange their own devices (preferably Laptop/ Tablet) and ensure the good internet connectivity during the online course.
- Attendance is mandatory for all sessions once registration is confirmed.
- No sessions will be repeated if a participant is unable to join due to poor internet connectivity or any other reasons.
