

This workshop was organized as an online Venture Base Camp (VBC) aimed at startups across various stages of product development (ideation to commercialization) who wish to put together a plan for co-ordinating multiple and diverse activities involved in product development, defining milestones and targets in a realistic manner, tracking status and progress of milestones, ensure optimal utilization of manpower and successfully meet deadlines.

BIRAC Regional Bio Innovation Centre (BRBC) is a joint initiative of BIRAC and Venture Center. It focuses on filling up a few key innovation's ecosystem gaps in India for biotech/biomed startups specifically relating to mentoring, regulations, fund raising and Bio Incubation practice.

Venture Base Camps are high intensity, focused, theme-based camps intended to take a startup from point A to point B in their entrepreneurial journey, prior to their execution on key goals of the company.

The focus of this Venture Base Camp:

Every start-up is subjected to a number of questions from various stakeholders, related to the product, the technology, financials etc. However, one of the most frequent questions from most stakeholders relates to milestones and timing. "When will you complete development?", "When will you get regulatory approval?", "When will you launch?" are all frequent questions every start-up is familiar with. Many start-ups and entrepreneurs would also be familiar with the discomfort of repeatedly missing deadlines and milestones and often wondering, "Where did all that time go?". The Focus of this workshop is to understand basics of project management. Learn how you can direct your teams more efficiently, react to issues with greater agility and reach your milestones in a consistent manner.

Course Description:

Project management is a proactive process that seeks to help the right people do the right tasks at the right time. Without a set project management method, many teams tend to work reactively—handling issues as they arise rather than proactively planning for known risks and setting project goals and parameters from the beginning. With the help of a user-friendly software solution (Project Libre), learn how to break down a project into more manageable pieces with a clear process of assigned tasks, milestones, and deadlines. Learn how you can direct your teams more efficiently, react to issues with greater agility and reach your milestones in a consistent manner.

On Day 2 of the event 3 Participants were selected via Lucky draw to do a Live exercise about their project with Mr. Ravi S.

Anchor Faculty and Venture Base Camp Director :

Mr. Ravi Sarangapani

Attendees: Total 24 participants attended the venture base camp

Excellent workshop	
thanks for organizing such workshops!	
I WISH WE COVERED FINANCES AS WELL.LOVED ALL OF IT!	
Please have a follow up session by Ravi to cover costing and budgeting aspects of PM as well. That would be great!	
THERE SHOULD BE A DISCUSSION ON THE FINANCIAL ASPECTS	
Very informative session for budding Startup for project management and planning. Curious to attend future events of VC.	
Excellent Event.	
Please share the content for future reference	
Great , Continue to go ahead.	
If there can be a SOP for a dummy project, which everyone practices to make sure they have followed the Project Libre and are able to reproduce the same.	
The workshop was very informative and helpful.	
How did you hear about the event
