Comments about Advice/Mentoring from Mentor	
Advice was practical, and mentor suggested a way to clear the doubts	
It was really helpful	
The mentor was very knowledgeable. I had many questions, and to almost all of them, he had spot on answers, and to others, he gave very good directions in which I can go further. Some of my questions were not good for a short meeting like this, but still he gave very good brief answers, and pointers to go further studying about it. P.S. To the section above, I am assuming 7 is good and 1 is bad.	
Highly competent and goal oriented
